

The 1st International Conference on Sustainable Science, Technology, and Education

Thursday, 10 October 2024 - Friday, 11 October 2024

Lombok

Scientific Programme

The 1st International Conference on Sustainable Science, Technology, and Education (The 1st ICSSTE) aims to bring together a diverse group of stakeholders, including researchers, academics, policymakers, industry leaders, educators, and community advocates, to share and discuss cutting-edge developments and strategies for advancing sustainability across science, technology, and education. This conference serves as a platform for interdisciplinary collaboration, knowledge exchange, and the promotion of innovative solutions to global sustainability challenges. The conference themes are environmental and conservation and biodiversity, sustainable energy strategies and technologies, earth sciences for sustainability, and education for sustainable environment, energy, and earth sciences. The 1st ICSSTE seeks to significantly contribute to global sustainability efforts by achieving these aims, fostering a resilient future for all.
